REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The new references provided by Applicant in the information disclosure statement have been fully considered and deemed not to affect patentability. The references all teach the same invention, which is the combination of a promoter, a nucleic acid encoding an active protein, a cleavable site, and an inhibiting factor. While they generally teach the use of naturally occurring precursors of active compounds to inactivate other active compounds, they do not teach the use of a latency associated peptide in combination with an interleukin or interferon. As was stated in Applicant's arguments of 10 December 2002, there is no expectation in the art that a latency associated peptide derived from TGF- β could successfully be used to prolong the half-life of another ~~agent~~ unrelated agent such as an interferon or interleukin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L. Andres whose telephone number is 571-272-0867. The examiner can normally be reached on Monday, Tuesday, Thursday, Friday, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Caputa can be reached on 571-272-0829. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
